

Jumpmaster Prayer

Heavenly Father, you have created the earth and sky, and have given man the ingenuity to leave the earth in flight and return by parachute. In my chosen profession as a Jumpmaster, I have accepted responsibility in a task in which there is no margin for error, no second chance to do it right next time, or do it over again. I humbly realize that when I stand before a jumper and inspect that I am taking his life into my hands. Help me to realize my own limitations and to concentrate fully on each person and on each task.

Lord, help me to never ever take anything for granted as a Jumpmaster. Through your gifts and training I have the eyes, hands, and mind to be a Jumpmaster. Help me to never be complacent but always be determined to further sharpen and hone my skills.

And Lord, when I report to you for my final manifest call may I hear you say, "Well done Jumpmaster, my faithful servant enter into your reward."

Amen.
